

2-EZ[®]XL Series

Case Erector/Bottom Taper - Large Cases

Combi Packaging System's heavy duty side belt drive case erectors form and bottom seal large and extra large cases at speeds up to 10 cases per minute. These machines are built for optimal durability, reliability and value. Engineered with the industry's strongest frame (lifetime warranty) for the most demanding 3-shift environments, the 2-EZ[®]XL, 2-EZ[®]XL HS, and 2-EZ[®]XXL can readily integrate into your existing line. Combi's user-friendly EZ-load walk-in case magazines and 2-minute changeover system are standard features. The redesigned 2-EZ[®]XL series case erectors will provide years of dependable service and can form and seal the widest variety of large cases, from single wall to triple wall corrugated.

2-EZ[®]XL for Large Cases

2-EZ[®]XL Series

Designed to Perform:

The flat case blank stands vertically in the easy to load, walk-in case magazine. The case blank is extracted from the magazine with vacuum cups and formed by a retracting squaring arm. The rear minor flap is rotated 90°. The case is then transferred into the dual belt drives where it is transported across the tape head and is bottom sealed with a strip of pressure sensitive tape.
